

Flour that honors  
your taco traditions.

**GRAIN  CRAFT**

At Grain Craft we produce premium flour for your authentic tortillas. Available in bulk and bag, and through our distribution partners, our tortilla flour is crafted from the best wheat grown and harvested by American farmers.

Blended specifically to yield a small stretchable dough ball with great color and a smooth even finish, our Grain Craft Tortilla Flour is milled from premium wheat, resulting in a product that works well in press, hand-stretch, and die-cut applications.

For recommended tortilla formulas and tips visit [graincraft.com/technical](http://graincraft.com/technical).

# GROWING WITH OUR PARTNERS

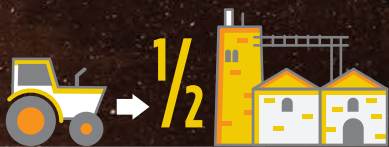

We are proud to work with farmers to educate on wheat quality and collaborate on farming practices to produce premium wheat varieties.

We collaborate with all major wheat-breeding programs and provide feedback on milling/baking quality of potential new releases.

We support and fund research at universities to discover impacts to quality and potential solutions.

Half of our mills utilize direct farm shipments of wheat from local farmers.

Over half of the farms that we work with have been family-owned for 100 years or more.

We connect with over 250 farmers each day via text to provide them with market updates.
